

# Networking

# Temporal Networks

- ✱ On-going systems
- ✱ Episodic networking
  - ✱ Workshops
  - ✱ Conferences

# Networking Activities

- ✱ Form new network
- ✱ Place new information/data into existing network
- ✱ Combine multiple networks into a partnership
- ✱ Virtual/electronic network – info sharing

# Networking Disciplines

- ✱ **Managers Network**
- ✱ **Public Information Network**
- ✱ **Watershed Network**
- ✱ **Research and Development Network**

# Managers Network

- ★ Monitoring standards (QA/QC)
- ★ Predictive closing standards and guidelines
- ★ Training – health and safety
- ★ GIS -- problem beaches and possible sources
- ★ Sand -- where going, where obtained from
- ★ Weather -- data tie-in
- ★ Funding

# Public Information Network

- ★ GIS -- real-time beach status
- ★ Common risk criteria and communication
- ★ Web site design and links, common background info
- ★ Signage -- common, multiple language
- ★ Volunteer monitoring -- training and communication
- ★ Funding

# **Watershed Network**

- ✱ **NRCS/Public Health/Beach Manager dialogue**
- ✱ **Land use planners, infrastructure**
- ✱ **Funding**

# Research and Development Network

- ✱ Evolving technology and products
- ✱ Evolving science
- ✱ Impacts from physical changes and lake dynamics
- ✱ Funding
